

# HOW TO REHEAT TAMALES

## **STEAM**

Fill your steamer with water, and turn the heat to medium. Keep your tamales in their husks and steam for 15 to 20 minutes, adding an extra 10 minutes if your tamales are frozen.

## **OVEN**

Preheat oven to 325. Remove tamales from bag, wrap in foil, place them on sheet pan.

Bake 15-20 minutes if thawed, and 20-25 if frozen.

## **MICROWAVE**

Take a damp paper towel and wrap it around the tamales. Place them in the microwave for three to five minutes.
